## WHY I'M DOING BUSINESS UNDER THE SIGN OF THE CHALMERS MONOGRAM

I have joined the great order of Chalmers dealers because I am convinced that the Chalmers car is the last automobile word in its price-class.

I know of no motor car on earth that combines bigger values at a lower price.

Since I sat, last November, in the great Chalmers dealers' convention in Detroit at which the magnificent new 3400 r.p.m. Chalmers was unveiled, this car has wedged itself solidly into public confidence.

Its performance has taken away the breath of every critic who has put a skeptical foot on the accelerator.

In the smoke and crash of competition at the big automobile shows, the 3400 r.p.m. Chalmers astonished even the experts.

Might of motor and economy of operation are its shield and buckler in every action.

This car has convinced more pedestrians that they

ought to be riding than any other new-comer in the field.

It translates \$1090 into the silken lustre of motion never dreamed of in its price-class.

It brings the riches of amazing acceleration within reach at last of the man who has to watch his bank balance.

Look for and find the Chalmers Monogram when you go motor-buying.

The Chalmers Monogram will hang over my door just as long as I live up to the requirements of the high traditions of Chalmers Service—no longer.

I insist upon talking car to you before you make up your mind which to buy.

And remember that the Chalmers Company does not make cars merely to sell—but to stay sold.

That's why the Chalmers Monogram hangs over my door.

In the meantime these facts developed:

That to date the apparent intention of the Washington government to keep General Pershing's columns in Mexico has not been changed.

That General Obregon served no sort of notice that could be construed as an ultimatum demanding immediate withdrawal.

That the desire of the de facto government for withdrawal was again stated but that the only discussion along this line was regarding the advisability of an American retirement.
